with Him.

LONDON, Monday, Nov. 26.—The Irish nationalists are playing a waiting game in the autumn session of Parliament. The usually turbulent little band, who sit below the gangway in the House of Commons, have kept themselves in hand so far, although they are deeply interested in the insurance bill which is occupying all the time of the house.

William O'Brien and his handful of followers try sometimes to excite their fellow countrymen by engaging in sarcasm at their expense, but without success. Even the alleged atrocities of the Italian troops in Tripoli, which generally fill William Redmond with a desire to find out what the foreign secretary knows about it and what the government intends to do, has not aroused the occupants of the national benches. They are quietly waiting for 1912 "Ireland's year," as they call it.

The nationalist is everybody's friend this winter. He is busy in the lobby where the members gather to gossip, making converts to the cause of home rule and keeping wavering liberals from bolting from a policy to which some of their constituents are opposed.

While the rank and file of the party are doing missionary work in the lobby, the leader, John Redmond, is busy explaining home rule to the people of England. The nationalists say that when the English army lands in Ireland, demands, opposition to home rule will fade away.

Redmond's Campaign.

Mr. Redmond's campaign already has extended from Scotland in the north to the extreme south of England.

The colonial secretary, Lewis Harcourt, accompanied Mr. Redmond in the midlands, and at other places ministers and liberal leaders have sat with him on the platform.

Asked a few days ago as to the progress of the campaign, Mr. Redmond replied: "It's going fine. I have had a very friendly reception everywhere. The audiences have shown their interest in the question by listening to my speeches."

The press reports of the meetings record very few interruptions of the Irish leader. Of course the unionists, and especially the Ulster unionists, who have declared through their leader, Sir Edward Carson, that under no circumstances will they support home rule, have an explanation of this. They say that Mr. Redmond's friendly reception is accounted for by the fact that he preaches a very different story in England from that which he and his followers urge in America and Ireland.

In England, they say, the nationalist policy is painted as a policy of self-government with no idea of separation from England, while in America and Ireland it is home rule with absolute independence.

Cabinet Works on Bill.

Neither Mr. Redmond nor other supporters of home rule made any reference to the details of the proposed bill in their speeches. In fact, they have not even touched on the broad outline of the measure, which it is generally known has been decided upon. A committee of the cabinet is now working on the details.

In an interview Mr. Redmond said it was altogether too early to talk of the bill itself, adding, "we are at present too busy trying to convert the people of England to the principle of the home rule."

To do this the Irish leader must in the first place convince Englishmen, and particularly the nonconformist Englishman, that under home rule there will be no discrimination against the Irish Protestants. In all his speeches, Mr. Redmond has pressed this point.

"If Protestants are not satisfied with experiences of the past," he says "they can have safeguards placed in the bill itself."

Mr. Redmond and other Irish members who are touring England impress upon their audiences that what Ireland demands is not separation, but "the right of managing its own local affairs in a subordinate place, subject to the supremacy of the Imperial Parliament—a demand that has never been made by any community of white men in the empire and refused—except in the case of Ireland."

Committee to Find
No Instances Where
Votes Were Bought

WASHINGTON, Nov. 26.—With the declaration that no instances of vote buying were discovered, but with words of caution for the use of large sums of money in his campaign, the senate committee which investigated the election of United States Senator Isaac Stephenson is expected to report shortly after the opening of congress.

Senator Stephenson, according to a well-founded report here today, will be declared fully entitled to his seat.

The use of money in the Stephenson campaign was the result of the Wisconsin primary system, it was claimed in the hearings, and a condemnation of that system either in the committee's report or by members of the committee on the floor of the senate is now looked for.

The committee's report is now being written, its submission to all the senators who heard the testimony is only a matter of a few days and it is predicted that it will be disposed of by the senate before the Lorimer case.

NINE GOVERNORS ON TOUR

Special Train Will Carry Executives
Through the East.

Start Will Be Made from St. Paul
Tonight and People of Eastern
Cities Will Get Object
Lesson.

ST. PAUL, Minn., Nov. 26.—An eleven-car train, known as the Western Governors' Special, will depart from St. Paul at 10 o'clock tomorrow night for a twenty-day trip to twenty-one cities of the east and middle west, the first time in the history of this country such an enterprise has been undertaken. Nearly 4,000 miles will be covered by the special from its departure before its return to St. Paul on December 15. The cities where the special will stop represent a total population of more than 12,500,000 people.

The western governors are going down east to bring the east and west into closer contact. The people of the east, through their representative business organizations, have made "get acquainted" excursions to the western states and now the people of the west are sending their governors and most prominent business men to return the compliment.

The "patronize home industry" spirit of the west has been one of the considerations which has urged the western development organization to send this excursion to the eastern states, seeking the best points at which the west may buy its goods, since it is felt that the opening of the Panama canal is apt to make European manufacturers close competitors of all American industries.

In all cities to be visited the leading commercial organizations have taken full charge of the arrangements and there will be a series of luncheons and banquets and much speech making when the western governors will be called upon to state the objects of the trip.

To Reveal Resources.

The five exhibit cars to be part of the special train will be fairly instructive of the resources of the mines, forest and field of the west. These cars will be parked convenient to the center of population of the cities to be visited and representatives of the state will explain the exhibits and offer information and literature regarding the northwest.

There will be ten state exhibits and nine governors will make the trip. Those who arrive today are: Governors James H. Hawley of Idaho, Oswald West of Oregon, Robert S. Yeager of South Dakota and John Shafroth of Colorado.

Governors Odell of Nevada, Carey of Wyoming, Norris of Montana and Burke of North Dakota are expected to arrive in the morning. The states represented on the special are: Minnesota, North Dakota, South Dakota, Wyoming, Montana, Oregon, Washington, Idaho, Colorado and Nevada.

During the next twenty days the special will practically be the capitol of eight western states and the governors will no doubt transact much state business during the trip.

Returning to St. Paul the governors and the official party will be the guests of the management of the Northwest Land Products show, to be held here from December 12 to 23, where the western states will be represented by special exhibits.

Leonidas Merritt Comes Back with

WASHINGTON, Nov. 26.—Replying to the statement of Rev. Frederick T. Gates, in which he emphatically denied all the charges made by the Merritt brothers before the house steel investigating committee, Leonidas Merritt last night declared he had heard it all before and that it was easily to be seen that Mr. Gates was more familiar with the ledger of Mr. Rockefeller than with the Bible, had been fixed on "cash on earth rather than treasures in heaven."

Preacher Speaks Emphatically.

NEW YORK, Nov. 26.—"I have to say that not one syllable of the words which Leonidas Merritt put in my mouth was ever uttered by me," declared Rev. Frederick T. Gates in a statement issued late yesterday replying to the testimony given by Merritt recently before the Stanley investigating committee. "With all the emphasis I can command I wish to deny these outrageous charges."

Mr. Gates' statement was issued, as was John D. Rockefeller's, on Thursday evening. In it the minister, whose name figured so largely in the testimony of the Merritt brothers regarding the manner by which Mr. Rockefeller gained control of the Mesaba ore properties and the railroad to develop them goes much more into detail than did Mr. Rockefeller in his reply to the committee. "With all the emphasis I can command I wish to deny these outrageous charges,"
